

**JTEC Catalog – MAT/MOUD**

<b>Courses</b>			
<b>Title</b>	<b>Course Duration Estimate</b>	<b>Link</b>	<b>Description</b>
CLA and JCOIN Course: Implementing Medications for Addiction Treatment (MAT) in Correctional Settings	1-2 hours	<a href="#">Link</a>	This course was developed to help educate individuals working in the field of corrections on the latest research and innovations around improving access to substance use disorder services, including MAT.
JLUSA and JCOIN Course: Understanding Overdose Risk and the Science of Medications to Treat Opioid Addiction	< 1 hour	<a href="#">Link</a>	This course explores the science of medications to treat opioid use disorder (MOUD), how these medications work, and their effectiveness.
MAT Course for County Executives: Understanding Overdose Risk and Medication Efficacy	< 1 hour	<a href="#">Link</a>	This course provides county executives an introduction to treatment and medications to treat opioid use disorder (OUD).
MAT Course for Judicial Leaders: Understanding Overdose Risk and Medication Efficacy	< 1 hour	<a href="#">Link</a>	This course was developed by JCOIN and the National Judicial Task Force to Examine State Courts' Response to Mental Illness to help educate judges and court staff on the FDA-approved medications to treat opioid use disorder and their effectiveness for people involved with the criminal justice system.
MAT Course for Prosecutors: Understanding Overdose Risk and Medication Efficacy	1-2 hours	<a href="#">Link</a>	This course is designed for prosecutors and their staff to better understand the treatment of substance use disorders, including FDA-approved medications to treat opioid use disorder and their effectiveness for people involved with the criminal justice system.
MAT Course for State and Local Leaders: Understanding Overdose Risk and Medication Efficacy	< 1 hour	<a href="#">Link</a>	This course provides state and local leaders an introduction to treatment and medications to treat opioid use disorder (OUD).
Reentry Best Practices for Individuals with Substance Use Disorders: A Course for Correction Leaders	< 1 hour	<a href="#">Link</a>	This course for correctional leaders shares the best practices in criminal justice settings to ensure successful reentry for people who have substance use disorders.

Reentry Best Practices for Individuals with Substance Use Disorders: A Course for Judicial Leaders	< 1 hour	<a href="#">Link</a>	This course shares the best practices in criminal justice settings to ensure successful reentry for people who have substance use disorders.
Reentry Best Practices for Individuals with Substance Use Disorders: A Course for Prosecutors	< 1 hour	<a href="#">Link</a>	This course shares the best practices that prosecutors can implement to ensure successful reentry for people who have substance use disorders.
Reentry Best Practices for Individuals with Substance Use Disorders: A Course for State and Local Leaders	< 1 hour	<a href="#">Link</a>	This course for state and local leaders shares the best practices that correctional, community-based behavioral health, and probation and parole agencies can implement to ensure successful reentry for people who have substance use disorders.
Reentry Best Practices for Individuals with Substance Use Disorders: A TASC Course on Reentry	< 1 hour	<a href="#">Link</a>	This course was developed by Addiction Policy Forum, TASC, and JCOIN to share the best practices in criminal justice settings to ensure successful reentry for people who have substance use disorders.
SUSTAIN Substance Use Disorders   Functional Knowledge for Justice System Professionals	1-2 hours	<a href="#">Link</a>	This course provides foundational knowledge about substance use (SUD) and co-occurring disorders (COD), reviews evidence-based practices for addressing SUD and COD, and presents practical information and resources to enhance treatment access and delivery.

Recorded Webinars			
Title	Course Duration Estimate	Link	Description
Expanding Access to Methadone Treatment for Opioid Use Disorder in Carceral Settings	< 1 hour	<a href="#">Link</a>	This webinar provides an overview of the updated final rules of 42 CFR Part 8 and how they affect methadone dispensation in carceral settings.
JCOIN Speaker Series   Medications for Opioid Use Disorder in Criminal Justice Settings	< 1 hour	<a href="#">Link</a>	This webinar discussed the FDA-approved medications for opioid use disorder (MOUD), how addiction is a chronic neurobehavioral disorder, how MOUD works by attenuating positive and negative reinforcement, and the effectiveness of MOUD for individuals with an opioid use disorder, specifically for those in jails and prisons.
JCOIN Speaker Series   Reentry Research – Mitigating the Risk during Reentry for People with Substance Use Disorders	1-2 hours	<a href="#">Link</a>	In this webinar, presenters will discuss the latest research, science, and innovation around mitigating risk during reentry for people with opioid use disorders.
JCOIN Speaker Series   Strategies to Reduce Recidivism and Prevent MOUD Diversion in Jails and Prisons	1-2 hours	<a href="#">Link</a>	This webinar presents recent findings from the Massachusetts Justice Community Opioid Innovation Network (MassJCOIN) Clinical Research Center on the implementation and outcomes of a state law to expand the use of all three FDA-approved medications for opioid use disorder (MOUD) in seven county jails across the state.
JCOIN Speaker Series   Key Barriers and Facilitators for Medications to Treat Opioid Use Disorders in U.S. Jails	1-2 hours	<a href="#">Link</a>	This webinar showcases findings from a national study by JCOIN's Clinical Research Center at Chestnut Health Systems, including the identification of 10 OUD best practices, grounded in the scientific literature, that were consistently referenced in treatment and practice guidelines recommended by a variety of federal agencies and national organizations.
JCOIN Webinar   JCOIN and CLA – Reentry Planning for People with Opioid Use Disorder	1-2 hours	<a href="#">Link</a>	This webinar, hosted by the Correctional Leaders Association (CLA) in partnership with NIH's Justice Community Opioid Innovation Network (JCOIN), discusses the latest research, science and innovation around mitigating risk during reentry for people with opioid use disorders.

<p>JCOIN Webinar   Reentry Best Practices for People with Opioid Use Disorder</p>	<p>1-2 hours</p>	<p><a href="#">Link</a></p>	<p>This webinar reviews the latest research, science, and innovation around mitigating risk during reentry for people with opioid use disorders.</p>
<p>Expanding Access to Methadone Treatment for Opioid Use Disorder in Carceral Settings</p>	<p>&lt; 1 hour</p>	<p><a href="#">Link</a></p>	<p>This webinar provides an overview of the updated final rules of 42 CFR Part 8 and how they affect methadone dispensation in carceral settings.</p>
<p>JCOIN Speaker Series   Medications for Opioid Use Disorder in Criminal Justice Settings</p>	<p>&lt; 1 hour</p>	<p><a href="#">Link</a></p>	<p>This webinar discussed the FDA-approved medications for opioid use disorder (MOUD), how addiction is a chronic neurobehavioral disorder, how MOUD works by attenuating positive and negative reinforcement, and the effectiveness of MOUD for individuals with an opioid use disorder, specifically for those in jails and prisons.</p>

**Podcast Episodes**

Title	Link	Description
The Benefits and Implementation Challenges of the First State-Wide Comprehensive Medication for Addictions Program in a Unified Jail and Prison Setting (S2E6)	<a href="#">Link</a>	This episode takes a different look at OUD by examining the implementation of a MAT program to consider some of the challenges facing programs, organizations, and communities that want to help individuals with OUD but find there are often roadblocks or hurdles to doing so effectively.
Adoption of Evidence-Based Clinical Innovations: The Case of Buprenorphine Use by Opioid Treatment Programs (S2E7)	<a href="#">Link</a>	This episode considers how states implemented buprenorphine programs for individuals with OUD.
A Community Outreach Intervention to Link Individuals with Opioid Use Disorders to Medication-Assisted Treatment (S2E9)	<a href="#">Link</a>	This episode discusses a peer outreach and MAT treatment linkage program and considers the various factors that increase the likelihood that participants pursue treatment.
Loosening MOUD Restrictions During COVID-19 (S3E1)	<a href="#">Link</a>	This episode discusses how a global pandemic like COVID-19 affects individuals engaged in treatment involving Medications for Opioid Use Disorder (MOUD).
Estimating the Impact of Wide Scale Uptake of Screening and Medications for Opioid Use Disorder in U.S. Prisons and Jails (S3E3)	<a href="#">Link</a>	This episode will discuss providing MOUD to individuals while they are in prison. Find out why you should not only care but help.
Strategies to Improve Implementation of Medications for Opioid Use Disorder Reported by Veterans Involved in the Legal System (S3E5)	<a href="#">Link</a>	In this episode, we report on a study of U.S. veterans with opioid use disorder who discuss what they think would help them in their treatment.
Community Social Vulnerability and Access to Medications for Opioid Use Disorder Within the Continental U.S.: A Cross-Sectional Study (S3E10)	<a href="#">Link</a>	This episode considers what scholars found when they compared various community resources and services and what those differences mean for individuals in need of services.
Incarcerated Individuals' Preferences for MAT (S4E2)	<a href="#">Link</a>	In this episode, we review the idea of patient preference for medication and begin to link those preferences to better treatment outcomes.
Telehealth and MOUD (S4E3)	<a href="#">Link</a>	In this episode we provide an overview of three studies that all examined the use of tele-technology and the delivery of counseling and medications for opioid use disorder (MOUD).

MOUD Diversion (S4E8)	<a href="#">Link</a>	This episode discusses one study that worked to decrease (and even stop) diversion, which is when patients receiving medicine for the treatment of opioid use disorder (MOUD) share, sell, or hoard their medications.
Project ECHO for Helping Medical Professional Learn About MOUD (S4E9)	<a href="#">Link</a>	This episode provides a fascinating look at how detailed and in-depth training can help doctors (who often do not receive MOUD training in medical school) can learn more about MOUD to improve their assessment and delivery of the medications to those who desperately need the medications.
COVID, Medication for Substance Use Disorder, and Community Partnerships (S5E3)	<a href="#">Link</a>	Representatives from the JCOIN 1 UMass Hub discuss a research project on substance use disorder (SUD) that pivoted in response to COVID challenges; the results have great value to the community, criminal legal and health partners, and participants.
Extended-Release Medications to Treat Opioid Use Disorder (S5E4)	<a href="#">Link</a>	Drs. Michael Gordon and Tom Blue (Friends Research Institute) provide an excellent overview of their clinical study of individuals leaving jail while being treated with extended-release naltrexone and buprenorphine.
Implementing MOUD in Jail Settings (S5E5)	<a href="#">Link</a>	Dr. Todd Molfenter (University of Wisconsin) tells listeners how he and his team are learning methods and mechanisms for implementing medications for opioid use disorder (MOUD) treatment programs.
Implementing System Change to Improve MOUD Treatment (S5E6)	<a href="#">Link</a>	Dr. Jennifer Becan (Texas Christian University) walks listeners through the ways her team is working to improve reentry for adults on parole after incarceration who are using opioids via medication for opioid use disorder (MOUD).
Race & MOUD (S6E1)	<a href="#">Link</a>	This episode discusses research that examines the relationship between race and the use of medication for opioid use disorder (MOUD). The researchers also look at other factors that might mediate this relationship.
COVID, Race, & MOUD (S6E3)	<a href="#">Link</a>	In this episode, we explore the ways COVID impacted particular racial groups with substance use disorders (SUDs) and provide some suggestions on how to improve treatment processes for the future.

LGBTQIA+ & MOUD (S6E5)	<a href="#">Link</a>	This episode discusses research that finds that very few of the U.S. substance use disorder (SUD) treatment facilities that advertised having LGBTQIA+ specific services actually reported offering them. The research explores stigma, bias, and discrimination, and posits a strong need for LGBTQIA+ affirming care.
Women & MOUD (S6E6)	<a href="#">Link</a>	This episode takes an in-depth look at gender disparities and substance use disorder (SUD) treatment (typically medication for opioid use disorder and counseling).
Pregnant People & MOUD (S6E7)	<a href="#">Link</a>	This episode considers medication for opioid use disorder treatment among individuals who are pregnant. The researchers report interesting findings related to pregnancy and race/ethnicity and suggest some reasons for disparities including stigma and Medicaid access.
Pregnant, Post-partum, & OUD (S6E8)	<a href="#">Link</a>	This episode reports on the prevalence of OUD-related hospital use during the postpartum period.
The Benefits and Implementation Challenges of the First State-Wide Comprehensive Medication for Addictions Program in a Unified Jail and Prison Setting (S2E6)	<a href="#">Link</a>	This episode takes a different look at OUD by examining the implementation of a MAT program to consider some of the challenges facing programs, organizations, and communities that want to help individuals with OUD but find there are often roadblocks or hurdles to doing so effectively.
