

JTEC Catalog - OUD

Courses			
Title	Course Duration Estimate	Link	Description
Cascade of Care Coordinating Substance Use Disorder Treatment Services for Justice-Involved Individuals	1-2 hours	Link	This course describes the cascade of care model and how it applies to addressing SUD treatment needs.
CLA and JCOIN Course: Implementing Medications for Addiction Treatment (MAT) in Correctional Settings	1-2 hours	Link	This course was developed to help educate individuals working in the field of corrections on the latest research and innovations around improving access to substance use disorder services, including MAT.
Fentanyl Facts and Overdose Risk: A DEA Educational Foundation Course	< 1 hour	Link	This course was developed by the Addiction Policy Forum in partnership with the Drug Enforcement Administration (DEA) Educational Foundation and JCOIN to share facts about fentanyl in the U.S., increasing overdose risk, and resources for communities.
Fentanyl Facts and Overdose Risk: An Addiction Policy Forum Course	< 1 hour	Link	This course was developed by the Addiction Policy Forum and JCOIN to share facts about fentanyl in the U.S., increasing overdose risk, resources for communities, and myths and misconceptions.
First Responder Deflection: A Warm Handoff to Services in the Community	1-2 hours	Link	This course provides: information on the background and purpose of deflection; descriptions of five pathways of deflection that local communities are using to connect people to services; examples of how these deflection pathways are being implemented in a variety of community settings; resources for local leaders to begin, augment, or support deflection initiatives in their communities; and guidance for incorporating evaluation into deflection initiatives.
Implementing Evidence-Informed Practices for Opioid Use Disorder	1-2 hours	Link	This course provides an overview of opioids and overdose risk and describes effective practices for treating substance use disorder (SUD), including descriptions of both practices and policies that can help or hinder successful overdose prevention and treatment for SUD.

Implementing the NIATx Model of Process Improvement	1-2 hours	Link	These NIATx tutorials will provide you all the information and tools necessary to successfully implement the NIATx Model of Process Improvement within your justice or community-based agency.
JLUSA and JCOIN Course: Understanding Overdose Risk and the Science of Medications to Treat Opioid Addiction	< 1 hour	Link	This course explores the science of medications to treat opioid use disorder (MOUD), how these medications work, and their effectiveness.
MAT Course for County Executives: Understanding Overdose Risk and Medication Efficacy	< 1 hour	Link	This course provides county executives an introduction to treatment and medications to treat opioid use disorder (OUD).
MAT Course for Judicial Leaders: Understanding Overdose Risk and Medication Efficacy	< 1 hour	Link	This course was developed by JCOIN and the National Judicial Task Force to Examine State Courts' Response to Mental Illness to help educate judges and court staff on the FDA-approved medications to treat opioid use disorder and their effectiveness for people involved with the criminal justice system.
MAT Course for Prosecutors: Understanding Overdose Risk and Medication Efficacy	1-2 hours	Link	This course is designed for prosecutors and their staff to better understand the treatment of substance use disorders, including FDA-approved medications to treat opioid use disorder and their effectiveness for people involved with the criminal justice system.
MAT Course for State and Local Leaders: Understanding Overdose Risk and Medication Efficacy	< 1 hour	Link	This course provides state and local leaders an introduction to treatment and medications to treat opioid use disorder (OUD).
Reentry Best Practices for Individuals with Substance Use Disorders: A Course for Correction Leaders	< 1 hour	Link	This course for correctional leaders shares the best practices in criminal justice settings to ensure successful reentry for people who have substance use disorders.
Reentry Best Practices for Individuals with Substance Use Disorders: A Course for Prosecutors	< 1 hour	Link	This course shares the best practices that prosecutors can implement to ensure successful reentry for people who have substance use disorders.

<p>Reentry Best Practices for Individuals with Substance Use Disorders: A Course for State and Local Leaders</p>	<p>< 1 hour</p>	<p>Link</p>	<p>This course for state and local leaders shares the best practices that correctional, community-based behavioral health, and probation and parole agencies can implement to ensure successful reentry for people who have substance use disorders.</p>
<p>Reentry Best Practices for Individuals with Substance Use Disorders: A TASC Course on Reentry</p>	<p>< 1 hour</p>	<p>Link</p>	<p>This course was developed by Addiction Policy Forum, TASC, and JCOIN to share the best practices in criminal justice settings to ensure successful reentry for people who have substance use disorders.</p>
<p>Research Partnerships</p>	<p>1-2 hours</p>	<p>Link</p>	<p>This course gives healthcare and criminal legal system professionals information about working with researchers on grants, program evaluation, etc.</p>
<p>SUSTAIN Substance Use Disorders Functional Knowledge for Justice System Professionals</p>	<p>1-2 hours</p>	<p>Link</p>	<p>This course provides foundational knowledge about substance use (SUD) and co-occurring disorders (COD), reviews evidence-based practices for addressing SUD and COD, and presents practical information and resources to enhance treatment access and delivery.</p>

Recorded Webinars

Title	Course Duration Estimate	Link	Description
Expanding Access to Methadone Treatment for Opioid Use Disorder in Carceral Settings	< 1 hour	Link	This webinar provides an overview of the updated final rules of 42 CFR Part 8 and how they affect methadone dispensation in carceral settings.
JCOIN Speaker Series Cascade of Care and Practical Applications	1-2 hours	Link	This webinar features presentations from key researchers that summarized the Cascade of Care framework, how it works, and how it can be applied to support individuals with opioid use disorder (OUD) or those that are at risk of developing OUD, specifically in justice settings.
JCOIN Speaker Series Deflection – Leveraging Police and First Responders to Create New Pathways to Treatment and Recovery	1-2 hours	Link	In this webinar, presenters discuss the latest research and innovations in the emerging field of deflection.
JCOIN Speaker Series Measuring and Operationalizing Recovery Capital with Dr. David Best	1-2 hours	Link	In this webinar, psychologist and criminologist David Best, PhD, discusses recovery capital, how and why it is measured, what to do with the results, and the present status of development work.
JCOIN Speaker Series Medications for Opioid Use Disorder in Criminal Justice Settings	< 1 hour	Link	This webinar discussed the FDA-approved medications for opioid use disorder (MOUD), how addiction is a chronic neurobehavioral disorder, how MOUD works by attenuating positive and negative reinforcement, and the effectiveness of MOUD for individuals with an opioid use disorder, specifically for those in jails and prisons.
JCOIN Speaker Series Reentry Research – Mitigating the Risk during Reentry for People with Substance Use Disorders	1-2 hours	Link	In this webinar, presenters will discuss the latest research, science, and innovation around mitigating risk during reentry for people with opioid use disorders.

JCOIN Speaker Series Strategies to Reduce Recidivism and Prevent MOUD Diversion in Jails and Prisons	1-2 hours	Link	This webinar presents recent findings from the Massachusetts Justice Community Opioid Innovation Network (MassJCOIN) Clinical Research Center on the implementation and outcomes of a state law to expand the use of all three FDA-approved medications for opioid use disorder (MOUD) in seven county jails across the state.
JCOIN Speaker Series Key Barriers and Facilitators for Medications to Treat Opioid Use Disorders in U.S. Jails	1-2 hours	Link	This webinar showcases findings from a national study by JCOIN's Clinical Research Center at Chestnut Health Systems, including the identification of 10 OUD best practices, grounded in the scientific literature, that were consistently referenced in treatment and practice guidelines recommended by a variety of federal agencies and national organizations.
JCOIN Webinar Assessment Tools in Criminal Justice and Addiction Medicine: Bridging the Divide	1-2 hours	Link	In this webinar, the presentation and discussion focus on principles of the ASAM Criteria and Risk-Needs-Responsivity (RNR) model and ideas on how to integrate the two frameworks in justice settings to help inform decision making.
JCOIN Webinar Beyond Fentanyl: How Drug Adulterants/Cutting Agents are Contributing to Overdose, Chronic Health Problems, and Affecting Naloxone Administration	1-2 hours	Link	This webinar covers the latest data on drug adulterants/cutting agents and newly emerging synthetic compounds that are causing chronic health problems and often overdose (fatal and non-fatal) among people who use substances.
JCOIN Webinar Budget Impact Tool to Help Estimate Costs of Providing Medications to Treat Opioid Use Disorder in Jails/Prisons	< 1 hour	Link	This webinar covers a study, by researchers at Weill Cornell Medicine with funding from NIDA's Justice Community Opioid Innovation Network (JCOIN), that developed a customizable budgeting tool for jails and prisons. The tool identifies an optimal MOUD delivery model based on existing resources and projects the costs of implementing and sustaining the model.
JCOIN Webinar JCOIN and CLA – Reentry Planning for People with Opioid Use Disorder	1-2 hours	Link	This webinar, hosted by the Correctional Leaders Association (CLA) in partnership with NIH's Justice Community Opioid Innovation Network (JCOIN), discusses the latest research, science and innovation around mitigating risk during reentry for people with opioid use disorders.

JCOIN Webinar JCOIN Rapid Innovation Grants (J-RIG) Call for Proposals	1-2 hours	Link	The JCOIN Rapid Innovation Grant (J-RIG) program is a rapid funding mechanism to support small research grants to study newly emerging policies, practices or interventions that address prevention and treatment of addiction in justice settings.
JCOIN Webinar JCOIN Rapid Innovation Grants (J-RIG) Call for Proposals – Cycle 2	< 1 hour	Link	This webinar provides background information on the JCOIN Rapid Innovation Grant (J-RIG) program, including the opportunity, eligibility, requirements, and application process.
JCOIN Webinar MAARC Virtual Workshop on Spatial Dimensions of Opioid Risk Environments	1-2 hours	Link	This workshop is designed to help researchers, analysts, and practitioners develop stronger spatial data analytic and visualization skills and will introduce basic spatial analytic functionalities using open source tools, mainly in R and GeoDa, using applied examples for mapping and analyzing the opioid risk environment.
JCOIN Webinar Prosecutor-led Diversion – Best Practices for People with Substance Use Disorder	1-2 hours	Link	This webinar focuses on diversion best practices, including evidence-based strategies and practical applications, and key elements of successful diversion initiatives.
JCOIN Webinar Reentry Best Practices for People with Opioid Use Disorder	1-2 hours	Link	This webinar reviews the latest research, science, and innovation around mitigating risk during reentry for people with opioid use disorders.

Podcast Episodes		
Title	Link	Description
Opioid Epidemic & Pregnant People in Prison (S2E1)	Link	This episode explores opioid use disorder (OUD) and stigma among pregnant people with OUD in prison.
Opioids and the Brain (S2E2)	Link	This episode breaks down the neuroscience of opioids by showcasing innovative research from several leading scholars.
Effectiveness of Medication Assisted Treatment for Opioid Use in Prison and Jail Settings: A Meta-Analysis and Systematic Review (S2E3)	Link	This episode takes a deep dive into medically assisted treatment (MAT) for substance use disorders by discussing a study that compares carceral resident outcomes when using methadone, buprenorphine, and naltrexone to see which group had lower recidivism and fewer risky behaviors.
The Benefits and Implementation Challenges of the First State-Wide Comprehensive Medication for Addictions Program in a Unified Jail and Prison Setting (S2E6)	Link	This episode takes a different look at OUD by examining the implementation of a MAT program to consider some of the challenges facing programs, organizations, and communities that want to help individuals with OUD but find there are often roadblocks or hurdles to doing so effectively.
Adoption of Evidence-Based Clinical Innovations: The Case of Buprenorphine Use by Opioid Treatment Programs (S2E7)	Link	This episode considers how states implemented buprenorphine programs for individuals with OUD.
A Community Outreach Intervention to Link Individuals with Opioid Use Disorders to Medication-Assisted Treatment (S2E9)	Link	This episode discusses a peer outreach and MAT treatment linkage program and considers the various factors that increase the likelihood that participants pursue treatment.
Loosening MOUD Restrictions During COVID-19 (S3E1)	Link	This episode discusses how a global pandemic like COVID-19 affects individuals engaged in treatment involving Medications for Opioid Use Disorder (MOUD).
The Impact of the Opioid Crisis on U.S. State Prison Systems (S3E2)	Link	In this episode, we explore a study involving MOUD within carceral spaces and highlight how some real-world challenges can interfere with treatment in prison.
Strategies to Improve Implementation of Medications for Opioid Use Disorder Reported by Veterans Involved in the Legal System (S3E5)	Link	In this episode, we report on a study of U.S. veterans with opioid use disorder who discuss what they think would help them in their treatment.

A Qualitative Study of People With Opioid Use Disorders' Experiences During the COVID-19 Pandemic (S3E7)	Link	In this episode, we explore a study that amplified the voices and experiences of individuals with SUD during a global health crisis.
Community Social Vulnerability and Access to Medications for Opioid Use Disorder Within the Continental U.S.: A Cross-Sectional Study (S3E10)	Link	This episode considers what scholars found when they compared various community resources and services and what those differences mean for individuals in need of services.
Incarcerated Individuals' Preferences for MAT (S4E2)	Link	In this episode, we review the idea of patient preference for medication and begin to link those preferences to better treatment outcomes.
Telehealth and MOUD (S4E3)	Link	In this episode we provide an overview of three studies that all examined the use of tele-technology and the delivery of counseling and medications for opioid use disorder (MOUD).
Factors Influencing OUD Responses (S4E5)	Link	In this episode, we discuss the intensely complex nature of public opinion regarding opioid use disorder (OUD).
MOUD Diversion (S4E8)	Link	This episode discusses one study that worked to decrease (and even stop) diversion, which is when patients receiving medicine for the treatment of opioid use disorder (MOUD) share, sell, or hoard their medications.
Project ECHO for Helping Medical Professional Learn About MOUD (S4E9)	Link	This episode provides a fascinating look at how detailed and in-depth training can help doctors (who often do not receive MOUD training in medical school) can learn more about MOUD to improve their assessment and delivery of the medications to those who desperately need the medications.
Improving Opioid Use Disorder Services through Partnerships (S5E2)	Link	Representatives from the JCOIN 1 Brown Hub discuss their collaborative study on improving the criminal-legal system's response to people affected by opioid use disorder
COVID, Medication for Substance Use Disorder, and Community Partnerships (S5E3)	Link	Representatives from the JCOIN 1 UMass Hub discuss a research project on substance use disorder (SUD) that pivoted in response to COVID challenges; the results have great value to the community, criminal legal and health partners, and participants.
Extended-Release Medications to Treat Opioid Use Disorder (S5E4)	Link	Drs. Michael Gordon and Tom Blue (Friends Research Institute) provide an excellent overview of their clinical study of individuals leaving jail while being treated with extended-release naltrexone and buprenorphine.

Implementing MOUD in Jail Settings (S5E5)	Link	Dr. Todd Molfenter (University of Wisconsin) tells listeners how he and his team are learning methods and mechanisms for implementing medications for opioid use disorder (MOUD) treatment programs.
Implementing System Change to Improve MOUD Treatment (S5E6)	Link	Dr. Jennifer Becan (Texas Christian University) walks listeners through the ways her team is working to improve reentry for adults on parole after incarceration who are using opioids via medication for opioid use disorder (MOUD).
Opioid Intervention Courts (S5E7)	Link	Dr. Kate Elkington, (Columbia University) discusses her research regarding the role of courts in increasing access to medication for opioid use disorder (OUD).
Race & MOUD (S6E1)	Link	This episode discusses research that examines the relationship between race and the use of medication for opioid use disorder (MOUD). The researchers also look at other factors that might mediate this relationship.
COVID, Race, & MOUD (S6E3)	Link	In this episode, we explore the ways COVID impacted particular racial groups with substance use disorders (SUDs) and provide some suggestions on how to improve treatment processes for the future.
LGBTQIA+ & MOUD (S6E5)	Link	This episode discusses research that finds that very few of the U.S. substance use disorder (SUD) treatment facilities that advertised having LGBTQIA+ specific services actually reported offering them. The research explores stigma, bias, and discrimination, and posits a strong need for LGBTQIA+ affirming care.
Women & MOUD (S6E6)	Link	This episode takes an in-depth look at gender disparities and substance use disorder (SUD) treatment (typically medication for opioid use disorder and counseling).
Pregnant People & MOUD (S6E7)	Link	This episode considers medication for opioid use disorder treatment among individuals who are pregnant. The researchers report interesting findings related to pregnancy and race/ethnicity and suggest some reasons for disparities including stigma and Medicaid access.
Pregnant, Post-partum, & OUD (S6E8)	Link	This episode reports on the prevalence of OUD-related hospital use during the postpartum period.

Interview With Dr. Tisha Wiley (S8E1)

[Link](#)

Dr. Wiley discusses the Justice Community Opioid Innovation Network (JCOIN) and the Learning Experiences to Advance Practice (LEAP) program. She also explains the goals, foci, and next steps for JCOIN.
