

**JTEC Catalog – Treatment Providers**

<b>Courses</b>			
<b>Title</b>	<b>Course Duration Estimate</b>	<b>Link</b>	<b>Description</b>
A JLUSA Course: Addressing the Stigma Around Substance Use Disorders	< 1 hour	<a href="#">Link</a>	Course addresses the latest research and innovations around addiction and criminal justice stigma.
Cascade of Care   Coordinating Substance Use Disorder Treatment Services for Justice-Involved Individuals	1-2 hours	<a href="#">Link</a>	This course describes the cascade of care model and how it applies to addressing SUD treatment needs.
CLA and JCOIN Course: Implementing Medications for Addiction Treatment (MAT) in Correctional Settings	1-2 hours	<a href="#">Link</a>	This course was developed to help educate individuals working in the field of corrections on the latest research and innovations around improving access to substance use disorder services, including MAT.
First Responder Deflection: A Warm Handoff to Services in the Community	1-2 hours	<a href="#">Link</a>	This course provides: information on the background and purpose of deflection; descriptions of five pathways of deflection that local communities are using to connect people to services; examples of how these deflection pathways are being implemented in a variety of community settings; resources for local leaders to begin, augment, or support deflection initiatives in their communities; and guidance for incorporating evaluation into deflection initiatives.
Implementing the NIATx Model of Process Improvement	1-2 hours	<a href="#">Link</a>	These NIATx tutorials will provide you all the information and tools necessary to successfully implement the NIATx Model of Process Improvement within your justice or community-based agency.
Intervention Strategies for Families With Justice-Involved Loved Ones	1-2 hours	<a href="#">Link</a>	This course was created for families with justice-involved loved ones to help identify the variety of criminal justice settings, strategies for practitioners that support families, and strategies for families, such as how families can support loved ones in criminal justice settings.

JLUSA and JCOIN Course: Understanding Overdose Risk and the Science of Medications to Treat Opioid Addiction	< 1 hour	<a href="#">Link</a>	This course explores the science of medications to treat opioid use disorder (MOUD), how these medications work, and their effectiveness.
LEAP Learner   Rapid Cycle Testing	1-2 hours	<a href="#">Link</a>	In this course, you'll learn about the NIATx Model of Process Improvement and the Rapid-Cycle Testing approach to systems change.
MAT Course for State and Local Leaders: Understanding Overdose Risk and Medication Efficacy	< 1 hour	<a href="#">Link</a>	This course provides state and local leaders an introduction to treatment and medications to treat opioid use disorder (OUD).
Mitigating the Harmful Effects of Fentanyl in Indigenous Communities	< 1 hour	<a href="#">Link</a>	This course is structured to equip participants with knowledge, skills, and culturally sensitive strategies to address the fentanyl crisis and its devastating effects on Indigenous populations
Professional Peers in Community Corrections	1-2 hours	<a href="#">Link</a>	Training for professional peers who are working or desire to work in community corrections (probation/parole/pretrial)
Professional Peers in Co-Responder Teams	1-2 hours	<a href="#">Link</a>	Training for professional peers who are working or desire to work in co-responder teams

Professional Peers in Drug Courts Series	2 + hours		
<b>Series Courses</b>			
Professional Peers in Drug Courts series   Course 1: Understanding the Purpose and Roles of Professional Peers	1-2 hours	<a href="#">Link</a>	This first course in the series outlines the purpose and roles for professional peers working in drug treatment courts.
Professional Peers in Drug Courts series   Course 2: Best Practices for Drug Treatment Courts	< 1 hour	<a href="#">Link</a>	This second course in the series outlines best practices and guidelines for professional peers working in drug treatment courts.

Professional Peers in Drug Courts series   Course 3: Understanding Core Competencies and Ethics	< 1 hour	<a href="#">Link</a>	This third course in the series outlines core competencies and ethics for professional peers to abide by when working in drug treatment courts.
Professional Peers in Drug Courts series   Course 4: Lessons Learned	< 1 hour	<a href="#">Link</a>	This fourth course in the series for professional peers outlines common lessons that have been learned with drug treatment courts.
Professional Peers in Drug Courts series   Course 5: Professional Development	1-2 hours	<a href="#">Link</a>	This course aims to inform and increase ways for professional peers to receive professional development.
Professional Peers in Drug Courts series   Series Completion - Professional Peers Working in Drug Treatment Courts	< 1 hour	<a href="#">Link</a>	Enroll in the final course to receive your completion certificate.

Professional Peers in Drug Courts for System Actors Series	2 + hours	<a href="#">Link</a>	This course is designed to help system actors develop the skills and knowledge needed to integrate professional peers into their drug treatment courts.
--	-----------	----------------------	---

### Series Courses

Professional Peers in Drug Courts for System Actors series   Series Overview: Understanding the Purpose and Roles of Professional Peers	< 1 hour	<a href="#">Link</a>	This will provide an overview of the course series for system actors working within drug treatment courts who are currently integrating or hope to integrate, professional peers into their settings.
Professional Peers in Drug Courts for System Actors Series   Course 1: Understanding the Purpose and Roles of Professional Peers	< 1 hour	<a href="#">Link</a>	This first in a series of courses aims to help system actors working in drug treatment courts learn how to integrate professional peers into their settings.
Professional Peers in Drug Courts for System Actors Series   Course 2: Working Effectively in Multidisciplinary Teams	< 1 hour	<a href="#">Link</a>	This second in a series of courses aims to help system actors working in drug treatment courts learn how to work effectively in multidisciplinary teams as they integrate professional peers into their settings.
Professional Peers in Drug Courts for System Actors Series   Course 3: How to Supervise Professional Peers	< 1 hour	<a href="#">Link</a>	This third in a series of courses aims to help system actors working in drug treatment courts learn how to supervise professional peers as they integrate them into their settings.

Professional Peers in Drug Courts for System Actors Series   Course 4: Lessons Learned	< 1 hour	<a href="#">Link</a>	This fourth course in the series gives system actors knowledge about burnout and other challenges that professional peers may experience. The course also covers the recovery process of professional peers.
--	----------	----------------------	--

Professional Peers in Incarceration Settings	< 1 hour	<a href="#">Link</a>	This course is created for professional peer support specialists working in incarceration settings.
Professional Peers in Reentry Organizations	1-2 hours	<a href="#">Link</a>	This course was created for professional peers who are in reentry organizations or hope to be a part of reentry organizations one day.
Professional Peers Working in Drug Treatment Courts Series	2 + hours	<a href="#">Link</a>	This course is designed to help professional peers develop the skills and knowledge needed to work successfully within a drug treatment court setting.

Public Health SUSTAIN Course Series	2 + hours	<a href="#">Link</a>	SUSTAIN (Staff Undertaking Skills to Advance Innovation) is designed to lift the veil covering the criminal justice system and introduce healthcare workers (or anyone interested in learning more!) to what it means to have criminal justice involvement.
-------------------------------------	-----------	----------------------	---

<b>Series Courses</b>			
Public Health SUSTAIN   The Criminal Justice System Through A Public Health Lens	< 1 hour	<a href="#">Link</a>	This first course in the series provides foundational knowledge of the criminal justice system and the special health needs and concerns of justice-involved individuals.
Public Health SUSTAIN   Social Determinants of Health and Criminal Justice Risk	< 1 hour	<a href="#">Link</a>	This second course in the series focuses on the social determinants of health.
Public Health SUSTAIN   Risk-Need-Responsivity and American Society of Addiction Medicine (ASAM) Criteria	< 1 hour	<a href="#">Link</a>	This third course in the series provides an overview of the Risk/Need/Responsivity (RNR) Model and the American Society of Addiction Medicine (ASAM) placement criteria.

Public Health SUSTAIN   Stigma and Trauma	< 1 hour	<a href="#">Link</a>	This fourth course in the series focuses on the stigma and trauma that people in the criminal justice system experience.
Public Health SUSTAIN   Sequential Intercept Model	1-2 hours	<a href="#">Link</a>	This fifth course in the series defines the sequential intercept model and discusses interventions that can take place at each intercept.
Public Health SUSTAIN   Information Sharing	< 1 hour	<a href="#">Link</a>	This sixth course in the series focuses on the special issues around information sharing for people with criminal justice involvement and/or substance use disorder.
Public Health SUSTAIN   Criminal Justice Interventions	< 1 hour	<a href="#">Link</a>	This seventh course in the series overviews interventions proven effective with people who have justice involvement.

Public Health SUSTAIN: Foundational Information about Justice System Involvement for Practitioners	2 + hours	<a href="#">Link</a>	This course provides an overview of the criminal legal system, directed toward healthcare providers who will have contact with people with CLS involvement.
Reentry Best Practices for Individuals with Substance Use Disorders: A Course for Correction Leaders	< 1 hour	<a href="#">Link</a>	This course for correctional leaders shares the best practices in criminal justice settings to ensure successful reentry for people who have substance use disorders.
Reentry Best Practices for Individuals with Substance Use Disorders: A Course for State and Local Leaders	< 1 hour	<a href="#">Link</a>	This course for state and local leaders shares the best practices that correctional, community-based behavioral health, and probation and parole agencies can implement to ensure successful reentry for people who have substance use disorders.
Reentry Best Practices for Individuals with Substance Use Disorders: A TASC Course on Reentry	< 1 hour	<a href="#">Link</a>	This course was developed by Addiction Policy Forum, TASC, and JCOIN to share the best practices in criminal justice settings to ensure successful reentry for people who have substance use disorders.
Research Partnerships	1-2 hours	<a href="#">Link</a>	This course gives healthcare and criminal legal system professionals information about working with researchers on grants, program evaluation, etc.

<p>Stigma Course for County Executives: Addressing the Stigma around Substance Use Disorders</p>	<p>&lt; 1 hour</p>	<p><a href="#">Link</a></p>	<p>This course provides an introduction to the latest research around SUD and criminal justice stigma and participants will also learn from leading experts on stigma within the SUD and criminal justice fields about the manifestation of stigma at the structural and individual level and innovations to reduce stigma.</p>
<p>System Actors in Co-Responder Teams</p>	<p>&lt; 1 hour</p>	<p><a href="#">Link</a></p>	<p>This course is a comprehensive course created for system actors who are a part of co-responder teams, and participants of this course will understand the essential elements, the roles of peers, competencies and ethical guidelines, and challenges within co-responder teams.</p>
<p>System Actors in Incarceration Settings</p>	<p>1-2 hours</p>	<p><a href="#">Link</a></p>	<p>This course offers training for the system actors of peer specialists that work in an incarceration setting.</p>
<p>System Actors in Reentry Organizations</p>	<p>&lt; 1 hour</p>	<p><a href="#">Link</a></p>	<p>This course is a comprehensive course created for system actors who are a part of reentry organizations, and participants of this course will understand the essential elements, the roles of peers, competencies and ethical guidelines, and challenges within reentry organizations.</p>
<p>Working with Justice-Involved Individuals and their Families</p>	<p>1-2 hours</p>	<p><a href="#">Link</a></p>	<p>This course is for practitioners working with justice involved individuals to help understand the effect on families.</p>
<p>Working with Professional Peers in Community Corrections: A Course for System Actors</p>	<p>1-2 hours</p>	<p><a href="#">Link</a></p>	<p>This course is a comprehensive course created for system actors who are a part of community corrections, and participants of this course will understand the essential elements, the roles of peers, competencies and ethical guidelines, and challenges within community corrections.</p>

Recorded Webinars			
Title	Course Duration Estimate	Link	Description
From Awake to Woke to Working: Embodying Organizational Equity Mindedness	< 1 hour	<a href="#">Link</a>	This webinar introduces the concept of equity-mindedness and the components of a racial equity approach to SUD services.
Harnessing the Potential of Mindfulness for Community Health and Health Equity: Lessons Learned from Clinical Research with Historically Marginalized Communities	< 1 hour	<a href="#">Link</a>	In this seminar, Dr. Shufang Sun shares findings of several clinical studies generated by her research team at Brown University School of Public Health, "Mindfulness for Health Equity Lab (mHEAL)," including studies with young sexual minority men with depression and anxiety at risk for HIV/STI, and sexual minority women with experiences of early life adversity and eating-related concerns.
JCOIN Speaker Series   Cascade of Care and Practical Applications	1-2 hours	<a href="#">Link</a>	This webinar features presentations from key researchers that summarized the Cascade of Care framework, how it works, and how it can be applied to support individuals with opioid use disorder (OUD) or those that are at risk of developing OUD, specifically in justice settings.
JCOIN Speaker Series   Deflection – Leveraging Police and First Responders to Create New Pathways to Treatment and Recovery	1-2 hours	<a href="#">Link</a>	In this webinar, presenters discuss the latest research and innovations in the emerging field of deflection.
JCOIN Speaker Series   Measuring and Operationalizing Recovery Capital with Dr. David Best	1-2 hours	<a href="#">Link</a>	In this webinar, psychologist and criminologist David Best, PhD, discusses recovery capital, how and why it is measured, what to do with the results, and the present status of development work.
JCOIN Speaker Series   Medications for Opioid Use Disorder in Criminal Justice Settings	< 1 hour	<a href="#">Link</a>	This webinar discussed the FDA-approved medications for opioid use disorder (MOUD), how addiction is a chronic neurobehavioral disorder, how MOUD works by attenuating positive and negative reinforcement, and the effectiveness of MOUD for individuals with an opioid use disorder, specifically for those in jails and prisons.

JCOIN Speaker Series   Reentry Research – Mitigating the Risk during Reentry for People with Substance Use Disorders	1-2 hours	<a href="#">Link</a>	In this webinar, presenters will discuss the latest research, science, and innovation around mitigating risk during reentry for people with opioid use disorders.
JCOIN Speaker Series   Stages of Change Model for Diversity, Equity, Inclusion, & Belonging (DEIB) Best Practices	1-2 hours	<a href="#">Link</a>	Presenters discuss the NAATP Diversity, Equity, Inclusivity & Belonging (DEIB) Advisory Committee’s stages of change model for diversity, equity, inclusion, and belonging.
JCOIN Speaker Series   Strategies to Reduce Recidivism and Prevent MOUD Diversion in Jails and Prisons	1-2 hours	<a href="#">Link</a>	This webinar presents recent findings from the Massachusetts Justice Community Opioid Innovation Network (MassJCOIN) Clinical Research Center on the implementation and outcomes of a state law to expand the use of all three FDA-approved medications for opioid use disorder (MOUD) in seven county jails across the state.
JCOIN Speaker Series   Key Barriers and Facilitators for Medications to Treat Opioid Use Disorders in U.S. Jails	1-2 hours	<a href="#">Link</a>	This webinar showcases findings from a national study by JCOIN’s Clinical Research Center at Chestnut Health Systems, including the identification of 10 OUD best practices, grounded in the scientific literature, that were consistently referenced in treatment and practice guidelines recommended by a variety of federal agencies and national organizations.
JCOIN Speaker Series   Xylazine Prevalence and Response Strategies	1-2 hours	<a href="#">Link</a>	Panelists discuss the prevalence and toxicology of xylazine, overdose response strategies, and what healthcare professionals and criminal justice practitioners can do to respond.
JCOIN Webinar   Approaches to Housing People Living with Substance Use Disorders	1-2 hours	<a href="#">Link</a>	In this webinar, Dr. Dennis Watson of Chestnut Health Systems discusses the Housing First approach and how it compares with the Continuum of Care/Treatment First approach.
JCOIN Webinar   Assessment Tools in Criminal Justice and Addiction Medicine: Bridging the Divide	1-2 hours	<a href="#">Link</a>	In this webinar, the presentation and discussion focus on principles of the ASAM Criteria and Risk-Needs-Responsivity (RNR) model and ideas on how to integrate the two frameworks in justice settings to help inform decision making.

JCOIN Webinar   Beyond Fentanyl: How Drug Adulterants/Cutting Agents are Contributing to Overdose, Chronic Health Problems, and Affecting Naloxone Administration	1-2 hours	<a href="#">Link</a>	This webinar covers the latest data on drug adulterants/cutting agents and newly emerging synthetic compounds that are causing chronic health problems and often overdose (fatal and non-fatal) among people who use substances.
JCOIN Webinar   JCOIN and CLA – Reentry Planning for People with Opioid Use Disorder	1-2 hours	<a href="#">Link</a>	This webinar, hosted by the Correctional Leaders Association (CLA) in partnership with NIH's Justice Community Opioid Innovation Network (JCOIN), discusses the latest research, science and innovation around mitigating risk during reentry for people with opioid use disorders.
JCOIN Webinar   JCOIN Rapid Innovation Grants (J-RIG) Call for Proposals	1-2 hours	<a href="#">Link</a>	The JCOIN Rapid Innovation Grant (J-RIG) program is a rapid funding mechanism to support small research grants to study newly emerging policies, practices or interventions that address prevention and treatment of addiction in justice settings.
JCOIN Webinar   JCOIN Rapid Innovation Grants (J-RIG) Call for Proposals – Cycle 2	< 1 hour	<a href="#">Link</a>	This webinar provides background information on the JCOIN Rapid Innovation Grant (J-RIG) program, including the opportunity, eligibility, requirements, and application process.
JCOIN Webinar   Measuring and Operationalizing Recovery Capital	1-2 hours	<a href="#">Link</a>	This presentation explores recovery capital, how and why it is measured, what to do with the results, and the present status of development work.
JCOIN Webinar   Prosecutor-led Diversion – Best Practices for People with Substance Use Disorder	1-2 hours	<a href="#">Link</a>	This webinar focuses on diversion best practices, including evidence-based strategies and practical applications, and key elements of successful diversion initiatives.
JCOIN Webinar   Recovery Housing for Justice-Involved Individuals	1-2 hours	<a href="#">Link</a>	In this JCOIN webinar, Dr. Leonard Jason provides a description of recovery housing, including the current evidence base and research needs.
JCOIN Webinar   Reentry Best Practices for People with Opioid Use Disorder	1-2 hours	<a href="#">Link</a>	This webinar reviews the latest research, science, and innovation around mitigating risk during reentry for people with opioid use disorders.

JCOIN Webinar   Treatment Considerations in the Age of Fentanyl	1-2 hours	<a href="#">Link</a>	In this webinar, presenters discuss practical clinical practice-based guidance on treating opioid use disorder in the age of fentanyl, the use of medications for opioid use disorder (MOUD) in the treatment of individuals using fentanyl and other considerations and challenges.
JCOIN Webinar   Virtual Meeting – Substance Use, Criminal Justice System Involvement, and Stigma	1-2 hours	<a href="#">Link</a>	This presentation and discussion focus on stigma related to substance use and criminal justice system involvement, including how stigma affects health outcomes, and interventions that can be used to address stigma and improve well-being.

Short Lessons			
Title	Course Duration Estimate	Link	Description
JCOIN Quick Lesson   Creating Your NIH Biosketch	1-2 hours	<a href="#">Link</a>	This lesson familiarizes learners with the NIH Biosketch, required for grant applications, and explains how it differs from a CV.

Podcast Episodes		
Title	Link	Description
Language Matters (S1E1)	<a href="#">Link</a>	This episode considers language around individuals and groups involved with the criminal legal system and offers suggestions for how to make sure language is specific, stigma-free, and humanizing.
Climate & Culture (S1E2)	<a href="#">Link</a>	In this episode, we discuss the many layers of culture and climate and why/how each matter.
Conducting Prison Research (S1E3)	<a href="#">Link</a>	This episode discusses some of the challenges researchers face when doing, or trying to do, research in prisons and offers some suggestions to bolster relationships with carceral institutions that yield data, findings, and...more research.
Co-Producing Knowledge (S1E4)	<a href="#">Link</a>	This episode covers the important topic of researcher-practitioner partnerships by going beyond how these relationships are formed to delve into the amazing accomplishments that can result when scientists and practitioners team up.
Research Ethics (S1E5)	<a href="#">Link</a>	This podcast episode engages listeners with important ethical concerns and offers some practical advice to avoid ethical pitfalls.
Mixed Methods Research (S1E6)	<a href="#">Link</a>	This podcast explains methods, terms, and ideas that may baffle you.
Implementation Science (S1E7)	<a href="#">Link</a>	In this episode, we discuss implementation science as a specific way of examining HOW organizations implement (or start doing) evidence-based practices (EBPs)... practices that are backed by science.
Risk/Needs (S1E8)	<a href="#">Link</a>	This episode considers the ever-important topic of the risks and needs of individuals on community supervision like probation or parole.
POs & EBPs (S1E9)	<a href="#">Link</a>	This episode considers how attitudes, leadership, and training matter for probation officers when using evidence based practices with clients.
HOPE Evaluation (S1E10)	<a href="#">Link</a>	This podcast episode takes listeners on a cross-country road-trip from study site to study site looking deep into the Honest Opportunity Probation Enforcement program.

Opioid Epidemic & Pregnant People in Prison (S2E1)	<a href="#">Link</a>	This episode explores opioid use disorder (OUD) and stigma among pregnant people with OUD in prison.
Opioids and the Brain (S2E2)	<a href="#">Link</a>	This episode breaks down the neuroscience of opioids by showcasing innovative research from several leading scholars.
Effectiveness of Medication Assisted Treatment for Opioid Use in Prison and Jail Settings: A Meta-Analysis and Systematic Review (S2E3)	<a href="#">Link</a>	This episode takes a deep dive into medically assisted treatment (MAT) for substance use disorders by discussing a study that compares carceral resident outcomes when using methadone, buprenorphine, and naltrexone to see which group had lower recidivism and fewer risky behaviors.
Withdrawal (S2E4)	<a href="#">Link</a>	This informative episode breaks down the science of withdrawal and walks listeners through how withdrawal affects many aspects of individuals' lives.
Conceptualizing Social Recovery: Recovery Routes of Methamphetamine Users (S2E5)	<a href="#">Link</a>	In this episode, we talk you through one study that examines various pathways methamphetamine users may take to achieve recovery.
The Benefits and Implementation Challenges of the First State-Wide Comprehensive Medication for Addictions Program in a Unified Jail and Prison Setting (S2E6)	<a href="#">Link</a>	This episode takes a different look at OUD by examining the implementation of a MAT program to consider some of the challenges facing programs, organizations, and communities that want to help individuals with OUD but find there are often roadblocks or hurdles to doing so effectively.
Adoption of Evidence-Based Clinical Innovations: The Case of Buprenorphine Use by Opioid Treatment Programs (S2E7)	<a href="#">Link</a>	This episode considers how states implemented buprenorphine programs for individuals with OUD.
Factors Associated with Drug Use in Prison: Norwegian Offender Mental Health and Addiction Study (S2E8)	<a href="#">Link</a>	In this episode, we head over to Norway, to consider a study that examines drug use before and during incarceration and the factors involved in the use of drugs while incarcerated.
A Community Outreach Intervention to Link Individuals with Opioid Use Disorders to Medication-Assisted Treatment (S2E9)	<a href="#">Link</a>	This episode discusses a peer outreach and MAT treatment linkage program and considers the various factors that increase the likelihood that participants pursue treatment.
Implicit Bias (S2E10)	<a href="#">Link</a>	This episode will help you learn how to recognize implicit bias and adopt new thinking and associated behaviors.

Loosening MOUD Restrictions During COVID-19 (S3E1)	<a href="#">Link</a>	This episode discusses how a global pandemic like COVID-19 affects individuals engaged in treatment involving Medications for Opioid Use Disorder (MOUD).
The Impact of the Opioid Crisis on U.S. State Prison Systems (S3E2)	<a href="#">Link</a>	In this episode, we explore a study involving MOUD within carceral spaces and highlight how some real-world challenges can interfere with treatment in prison.
Estimating the Impact of Wide Scale Uptake of Screening and Medications for Opioid Use Disorder in U.S. Prisons and Jails (S3E3)	<a href="#">Link</a>	This episode will discuss providing MOUD to individuals while they are in prison and find out and learn why you should not only care but help.
Scoping Review of Interventions to Link Individuals to Substance Use Services at Discharge from Jail (S3E4)	<a href="#">Link</a>	This episode offers a scoping review that examines what we know about what happens when we link individuals to substance use services upon jail discharge.
Strategies to Improve Implementation of Medications for Opioid Use Disorder Reported by Veterans Involved in the Legal System (S3E5)	<a href="#">Link</a>	In this episode, we report on a study of U.S. veterans with opioid use disorder who discuss what they think would help them in their treatment.
Reducing Opioid Deaths: The Role of the Community (S3E6)	<a href="#">Link</a>	This episode examines the role of communities in helping individuals with substance use disorder.
A Qualitative Study of People With Opioid Use Disorders' Experiences During the COVID-19 Pandemic (S3E7)	<a href="#">Link</a>	In this episode, we explore a study that amplified the voices and experiences of individuals with SUD during a global health crisis.
The Role of Dealers (S3E8)	<a href="#">Link</a>	This episode looks at a study that asks what the role of dealers is in protecting users from opioid overdose and harm.
Examining the Implementation of Police-Assisted Referral Programs for Substance Use Disorder Services in Massachusetts (S3E9)	<a href="#">Link</a>	This episode takes a deep dive into a study of police-assisted referrals for SUDs and reports on what the authors found and what it might mean for us as we continue working toward better outcomes.
Community Social Vulnerability and Access to Medications for Opioid Use Disorder Within the Continental U.S.: A Cross-Sectional Study (S3E10)	<a href="#">Link</a>	This episode considers what scholars found when they compared various community resources and services and what those differences mean for individuals in need of services.
Language Matters (S3 Bonus Episode)	<a href="#">Link</a>	This episode revisits the first episode and considers language around individuals and groups involved with the criminal legal system and offers suggestions for how to make sure language is specific, stigma-free, and humanizing.

Stigma & SUD (S4E1)	<a href="#">Link</a>	This episode discusses how stigma and substance use disorder are tragically connected and how we might work to improve both.
Incarcerated Individuals' Preferences for MAT (S4E2)	<a href="#">Link</a>	In this episode, we review the idea of patient preference for medication and begin to link those preferences to better treatment outcomes.
Telehealth and MOUD (S4E3)	<a href="#">Link</a>	In this episode we provide an overview of three studies that all examined the use of tele-technology and the delivery of counseling and medications for opioid use disorder (MOUD).
Post-Release OUD Overdose Death (S4E4)	<a href="#">Link</a>	In this episode, we review several studies that examine opioid use disorder (OUD) and overdose death post-incarceration.
Factors Influencing OUD Responses (S4E5)	<a href="#">Link</a>	In this episode, we discuss the intensely complex nature of public opinion regarding opioid use disorder (OUD).
Attitudinal and Systemic Barriers to Medicaid Access (S4E6)	<a href="#">Link</a>	In this episode, we discuss how Medicaid is one program to improve access to insurance (to improve health outcomes), and why some states make accessing Medicaid more difficult and the results are often tragic.
Assessing and Diagnosing SUD More Efficiently (S4E7)	<a href="#">Link</a>	This episode discusses how most prisons and jails use a clinical process to assess individuals for substance use disorder (SUD) and a host of other concerns, but the process is often lengthy and cumbersome, and how several scholars took this problem as a challenge and developed improved instruments for assessment that streamline the process and provide diagnoses more quickly so carceral staff can get right to designing a case plan and beginning treatment.
MOUD Diversion (S4E8)	<a href="#">Link</a>	This episode discusses one study that worked to decrease (and even stop) diversion, which is when patients receiving medicine for the treatment of opioid use disorder (MOUD) share, sell, or hoard their medications.
Project ECHO for Helping Medical Professional Learn About MOUD (S4E9)	<a href="#">Link</a>	This episode provides a fascinating look at how detailed and in-depth training can help doctors (who often do not receive MOUD training in medical school) can learn more about MOUD to improve their assessment and delivery of the medications to those who desperately need the medications.

Peer Recovery Support Services (S4E10)	<a href="#">Link</a>	This episode explores the process of training, credentialing, and monitoring peer recovery specialists.
Women, Incarceration, and Substance Use Disorder (S5E1)	<a href="#">Link</a>	Dr. Michele Staton (University of Kentucky) walks listeners through her work studying women and community reentry after prison release.
Improving Opioid Use Disorder Services through Partnerships (S5E2)	<a href="#">Link</a>	Representatives from the JCOIN 1 Brown Hub discuss their collaborative study on improving the criminal-legal system's response to people affected by opioid use disorder
COVID, Medication for Substance Use Disorder, and Community Partnerships (S5E3)	<a href="#">Link</a>	Representatives from the JCOIN 1 UMass Hub discuss a research project on substance use disorder (SUD) that pivoted in response to COVID challenges; the results have great value to the community, criminal legal and health partners, and participants.
Extended-Release Medications to Treat Opioid Use Disorder (S5E4)	<a href="#">Link</a>	Drs. Michael Gordon and Tom Blue (Friends Research Institute) provide an excellent overview of their clinical study of individuals leaving jail while being treated with extended-release naltrexone and buprenorphine.
Implementing MOUD in Jail Settings (S5E5)	<a href="#">Link</a>	Dr. Todd Molfenter (University of Wisconsin) tells listeners how he and his team are learning methods and mechanisms for implementing medications for opioid use disorder (MOUD) treatment programs.
Implementing System Change to Improve MOUD Treatment (S5E6)	<a href="#">Link</a>	Dr. Jennifer Becan (Texas Christian University) walks listeners through the ways her team is working to improve reentry for adults on parole after incarceration who are using opioids via medication for opioid use disorder (MOUD).
Opioid Intervention Courts (S5E7)	<a href="#">Link</a>	Dr. Kate Elkington (Columbia University) discusses her research regarding the role of courts in increasing access to medication for opioid use disorder (OUD).
"All In!" When Data Collection Is Hard... Get Creative! (S5E8)	<a href="#">Link</a>	This episode features an interview with Dr. TaLisa Carter (American University), who talks about how she navigates collecting interview data virtually, making the best of difficult research situations by rising above challenges and learning from the experience.

Race & MOUD (S6E1)	<a href="#">Link</a>	This episode discusses research that examines the relationship between race and the use of medication for opioid use disorder (MOUD). The researchers also look at other factors that might mediate this relationship.
Peer Support Specialists, Race, & SUD Treatment (S6E2)	<a href="#">Link</a>	In this episode, we discuss research examining racial disparities in substance use disorder (SUD) treatment enrollment and same-day transportation to treatment when the patient has a peer support specialist.
COVID, Race, & MOUD (S6E3)	<a href="#">Link</a>	In this episode, we explore the ways COVID impacted particular racial groups with substance use disorders (SUDs) and provide some suggestions on how to improve treatment processes for the future.
Social Determinants of Health & Substance Use Disorder (S6E4)	<a href="#">Link</a>	This episode considers research examining the social determinants of health (SDoH) related to substance use disorder (SUD) and the social-structural interventions that may slow the rate of SUD-related deaths accelerated by COVID.
LGBTQIA+ & MOUD (S6E5)	<a href="#">Link</a>	This episode discusses research that finds that very few of the U.S. substance use disorder (SUD) treatment facilities that advertised having LGBTQIA+ specific services actually reported offering them. The research explores stigma, bias, and discrimination, and posits a strong need for LGBTQIA+ affirming care.
Women & MOUD (S6E6)	<a href="#">Link</a>	This episode takes an in-depth look at gender disparities and substance use disorder (SUD) treatment (typically medication for opioid use disorder and counseling).
Pregnant People & MOUD (S6E7)	<a href="#">Link</a>	This episode considers medication for opioid use disorder treatment among individuals who are pregnant. The researchers report interesting findings related to pregnancy and race/ethnicity and suggest some reasons for disparities including stigma and Medicaid access.
Pregnant, Post-partum, & OUD (S6E8)	<a href="#">Link</a>	This episode reports on the prevalence of OUD-related hospital use during the postpartum period.
People with Disabilities & SUD Treatment (S6E9)	<a href="#">Link</a>	This episode discusses the needs of people with disabilities and SUD and the need for improved attention to the unique needs of people with disabilities who may need treatment for SUDs.

SUD & Structural Racism (S6E10)	<a href="#">Link</a>	This addresses the history of racialized drug policy in the U.S., including the use the five components of the structural competency framework as a way to suggest avenues that may change our understanding treatment planning for individuals from historically minoritized groups.
Segregation and Reform in U.S. Prisons and Jails (S7E1)	<a href="#">Link</a>	This episode discusses the use of segregation in U.S. prisons and reforms that states have enacted.
Carceral Residents' Physical Health Concerns (S7E2)	<a href="#">Link</a>	This episode helps correctional staff understand some of the major issues contributing to poor physical health among residents. We consider food and nutrition, vitamin and mineral intake, commissary prices, and in-custody healthcare co-pays.
Carceral Residents' Mental Health Concerns (S7E3)	<a href="#">Link</a>	This episode addresses PTSD and suicidal ideation and provides information about trauma-informed approaches that may equip carceral staff to assist residents who are experiencing one or both of these challenges.
Why Trauma Informed Care in Prison/Jail Isn't Enough (S7E4)	<a href="#">Link</a>	This episode builds on the prior episodes and presents a deeper dive into trauma-informed care.
Correctional Staff Health and Wellness (S7E5)	<a href="#">Link</a>	This episode addresses mental and physical health for correctional staff and looks at the importance of sound workplace interventions that correctional systems may want to consider before attempting to implement health and wellness initiatives to assist carceral staff.
Substance Use Disorder in Prisons and Jails (S7E6)	<a href="#">Link</a>	This episode covers three key topics: fentanyl, K2, and drug testing. These three issues challenge correctional staff; their level of understanding regarding fentanyl and K2, specifically, is generally very limited.
Medication for Substance Use Disorders in Prisons and Jails (S7E7)	<a href="#">Link</a>	This episode discusses three articles that highlight what MOUD treatments are, how jails/prisons can partner with community providers to offer them, and barriers and facilitators to MAT/MOUD implementation.
Cultural Competency in Carceral Settings (S7E8)	<a href="#">Link</a>	This episode explores cultural competency in correctional facilities, focusing on race/ethnicity and gender/sexual identity.

Culture and Climate in Prisons and Jails (S7E9)	<a href="#">Link</a>	The four articles presented in this podcast cover some of the key ideas or talking points that contextualize: 1) the barriers to correctional staff help-seeking; 2) why some correctional officers get into this occupation; 3) the relationship between turnover intent and job stress/involvement, and 4) the moral and social climate of prisons.
Rehabilitation, Programs, and Reform in Custodial Institutions (S7E10)	<a href="#">Link</a>	This episode discusses recent research about residents: prison philosophies and strategies that harm them and barriers they face to accessing programs in custody. The episode also covers some non-U.S. (global) harm reduction programs in prison settings.
